# CHIEN YU-HAN (Steven)

SCAD Creative Business Leadership · Jewellery Designer

## About

I am a jewellery designer/maker based in Taipei, Taiwan. I graduated from the University for the Creative Arts (UCA), Farnham, UK with a BA and MA in Jewellery and am currently enrolled in the Creative Business Leadership program at Savannah College of Art and Design (SCAD).I like to work in the minimalist and geometric style, I think that every object should have a story. I offer clients around the world handcrafted silver items that are custom designed, handcrafted and hand finished in my CYH Studio.In addition to making, I have also acquired strong leadership and organisational skills from my three-year tenure on the student council, where I established and led a campus esports club, organised a large-scale esports event and made proposals to teaching methods which were adopted by faculty. I have also exhibited internationally including in Germany, Prague and the UK, and visited more than 15 countries, all of which have given me a truly global outlook and understanding of different cultures, people and places.Leading by observing carefully, delegating thoughtfully and ensuring that all moving parts are coordinated. That's how I work and do all my work.
